

LUST & JOY

LOOPY BOUNCE®

The first sex toy you will make love to !

LUST & JOY

Loopy Bounce is the first toy conceived and designed to bring you new sensations. Ride it, tame it and you will have the feeling you're playing with a new partner ...

The usual sex balls, even if they may be fun, bring only few sensations. Fuck machines are very effective, but their terribly mechanical side puts most people off. The LOOPY BOUNCE meets the best of both worlds and will satisfy those who expect something other than mere vibrations !

To use alone or with your partner and above all, without moderation !

In order to fully enjoy the LOOPY BOUNCE, we have designed a specific dildo, the WAVEE. Long enough (29 cm for a maximum penetration depth of 18 to 20 cm), a double structure with a firm central body and a silicone envelope with a beautiful peach skin touch.
